EDUCATION

De La Salle University Manila - College of Computer Studies

Bachelor of Science in Information Technology

2021 - 2026

Manila, Philippines

Chevalier School - Senior High School

Science Technology Engineering Mathematics (STEM)

2019-2021

Angeles City, Pampanga

Chevalier School - Junior High School

2015 - 2019

Angeles City, Pampanga

EXPERIENCE

Software Developer Intern

Castles International Technology and SVC Inc.

Sept 2025 - Nov 2025

Pasig City, Manila

- Assigned to design and develop the company's official website - <https://citas.com.ph>, showcasing its Point of Sale (POS) services and solutions to enhance online presence and client engagement. Utilized MongoDB as the database for managing user inquiries and generating reports.
- Assisted in developing and integrating APIs, and worked with MySQL and stored procedures to support backend operations and data management.

QA Automation Engineer Intern

Finastra

December 2025 - Present

Pasig City, Manila

- Developed and maintained automated test scripts using **Snowride** and **Robot Framework**, improving test repeatability and reducing manual QA effort
- Automated end-to-end scenarios on **IBM iSeries**, covering core banking activities such as account updates, transaction validation, loan processing, and payment workflows.
- Collaborated with senior QA engineers to refine test cases, improve automation reliability, and ensure alignment with business requirements
- Executed automated test suites across various core banking functions and reported defects for resolution.

PROJECTS

Capstone Project - EduSpace: Room Availability and Resource Management System

- Developed an IoT-based system using **ESP32 microcontrollers** to monitor classroom availability in real time.
- Integrated hardware (camera module, sensors) with a **Firestore cloud backend** for efficient room management.
- Utilized Wi-Fi protocols to enable seamless real-time data transfer between IoT devices and the cloud
- Built a web/mobile interface for users to view room availability and system status
- Applied **system architecture design and requirements analysis** to ensure scalability and efficiency.

Mobile Application - Travary: Travel Experience App

- Developed Travary, a mobile application that allows users to record travel experiences with multimedia attachments, detailed notes, and geolocation integration
- Built the application using **Kotlin, Java, and XML** within Android Studio
- Implemented a **SQLite database** for efficient local data storage and offline access
- Integrated **OpenStreetMap API** for real-time geolocation tracking and interactive map visualization
- Utilized Android Studio's camera API to enable in-app photo capturing and seamless media uploads.

Web Application - Archers Lab Reservation System

- Developed and deployed Archers Lab Reservation System, a web application that enables registered users to check lab availability, reserve slots, and manage reservations securely.
- Implemented the backend using **JavaScript (Node.js/Express.js)** with **MongoDB** for efficient data storage and retrieval.
- Ensured secure authentication and user management for a reliable reservation experience.

SKILLS

Programming Languages: C, Java, PHP, Kotlin, Javascript, Typescript, HTML, CSS, MySQL, Python

Technologies & Tools: REST APIs, Postman API, Robot Framework, Snowride, IBM iSeries (AS/400), GitHub, TortoiseGit, Git, Jira, Agile/Scrum, Visual Studio Code, IntelliJ IDEA, Android Studio, Dev-C++, Arduino IDE, Cisco Packet Tracer, Kali Linux, PowerShell MySQL, MongoDB, Firebase, Wordpress, Lucidchart, ReactJS, REST APIs

Professional: Software Development Lifecycle, IoT Development , System Architecture Designing, System Requirements Analysis, Quality Assurance, System Administration and Maintenance, Integrative and Object-Oriented Programming, Mobile and Web Application Development, Penetration Testing, Database Management and Cloud Computing, Analytical & Critical Thinking, Flexibility & Open-Mindedness, Technological Proficiency

Productivity Tools: Microsoft Office Suite (Word, Excel, PowerPoint), Google Workspace (Docs, Sheets, Slides, Sites), Wix, Figma, Canva

ORGANIZATIONS & AFFILIATIONS

DLSU Habitat for Humanity Green Chapter

2022-2023

Junior Officer

Actively participated in community outreach programs aimed at promoting sustainable living practices and raising awareness about the importance of making a good community

Alyansang Tapat sa Lassalista

2022-2023

Member

Attended seminars and workshops about the organizations key platforms, redefining Lasallian Education and raising the standard of student life
